

Shavez Khan

Full Stack Software Engineer — Flutter — React.js — Next.js — JavaScript — TypeScript — Node.js — Python

+91-9311148483 | shavez.khancce@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#) | [LeetCode](#)

SUMMARY

Full stack software engineer with 1+ years of hands-on experience building production-ready web, mobile, ERP, and REST API applications. Experienced in Flutter and Dart for cross-platform mobile application development, along with React.js, Next.js, TypeScript, JavaScript, Node.js, Express.js, Python, and SQL. Experienced in developing admin and employee web applications, mobile applications, REST API integrations, authentication systems, role-based access control, database-driven applications, API testing, workflow automation, and AWS deployment.

EDUCATION

Dr. Akhilesh Das Gupta Institute of Professional Studies, GGSIPU

2022 – 2026

B.Tech in Computer Science Engineering (Completed) — CGPA: 7.7/10

New Delhi

EXPERIENCE

Software Engineer

Jan 2026 – Present

Deli Cocktail House

New Delhi

- Designed and developed a full-stack ERP solution for HR, payroll, attendance, inventory, and event management using Next.js, React, TypeScript, Node.js, Express.js, Prisma, and PostgreSQL, deployed and maintained on AWS.
- Developed an Admin Web Panel for managing employees, attendance, payroll, inventory, events, roles, and operational workflows with role-based access control and responsive user interfaces.
- Developed an Employee Web Panel for employees to manage attendance, view salary details, access assigned events, and view relevant employee information through secure authenticated workflows.
- Developed a cross-platform Employee Mobile Application using Flutter and Dart with functionality similar to the Employee Web Panel, including attendance, salary details, assigned events, employee information, and API-based data synchronization.
- Designed and integrated REST APIs using Node.js, Express.js, TypeScript, Prisma, and PostgreSQL to support the Admin Web Panel, Employee Web Panel, and Flutter Employee Mobile Application.
- Implemented secure authentication and authorization using email OTP, JWT, Redis, and role-based access control to protect employee and administrative data.
- Built an AI-powered WhatsApp chatbot using n8n workflow automation to handle client inquiries, provide automated responses, and reduce repetitive manual communication.
- Tested REST APIs using Postman and handled API integration, data validation, debugging, and deployment-related issues throughout the development lifecycle.
- **Tech Stack:** Flutter, Dart, Next.js 16, React 19, TypeScript, Node.js, Express.js, PostgreSQL, Prisma, Supabase, Redis, AWS, n8n, REST APIs, Postman, Turborepo, pnpm.

Full Stack Developer Intern

Nov 2025 – Jan 2026

OneSource – Pepti Wiki Platform

Remote

- Developed 15+ responsive and reusable UI modules using Next.js 15 and React 19 within a distributed agile development team.
- Integrated REST APIs using TanStack Query and implemented authentication workflows using Supabase Auth.
- Assisted backend development using Hono within a Turborepo and pnpm-based monorepo architecture with shared packages.
- Participated in sprint planning, code reviews, debugging, and feature development following collaborative software development practices.

Application Developer Intern

Jul 2025 – Oct 2025

WESEE, Indian Navy

New Delhi

- Developed interactive BI dashboards using React, Next.js, Tailwind CSS, Chart.js, Python/Flask, SQL databases, and CSV data processing for analytics and reporting workflows.
- Implemented interactive charts, filtering, dashboard configuration, data import, and Power BI-compatible reporting features for a data visualization platform.

PROJECTS

Food Delivery Platform – Web & Cross-Platform Mobile

2024 – 2025

- Developed a complete food delivery ecosystem consisting of customer, restaurant, and admin applications with ordering, cart, checkout, authentication, and order tracking workflows.
- Developed cross-platform mobile functionality using Flutter and Dart for Android and iOS, integrating REST APIs built with Node.js, Express.js, and MongoDB Atlas.
- Implemented application state management using Redux Toolkit and developed responsive web interfaces using Next.js and Tailwind CSS.
- **Tech Stack:** Flutter, Dart, Next.js, React.js, Node.js, Express.js, MongoDB, Redux Toolkit, Tailwind CSS | [GitHub](#) | [Live Demo](#)

Analytics Dashboard Platform

2025

- Built a scalable analytics platform with interactive visualization, dashboard generation, role-based access, data processing, and BI reporting workflows.
- **Tech Stack:** Next.js, React.js, PostgreSQL, SQL Server, Docker, Python | [GitHub](#)

Academic Decision Support System

2025

- Developed an AI-powered academic platform with semantic search, recommendation, and career guidance workflows using React, FastAPI, PostgreSQL, LangChain, and Python.
- **Tech Stack:** React.js, FastAPI, PostgreSQL, LangChain, Python | [GitHub](#)

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, C++, SQL, Dart

Mobile Development: Flutter, Dart, Android, iOS, Cross-Platform Mobile Development

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, shadcn/ui

Backend: Node.js, Express.js, FastAPI, Flask, Hono, REST APIs

Databases & State Management: PostgreSQL, MongoDB Atlas, Prisma ORM, Supabase, Redis, Redux Toolkit, TanStack Query

Authentication: JWT, Email OTP, Supabase Auth, Role-Based Access Control

Cloud, Automation, Testing & Tools: AWS, Docker, Vercel, n8n, Postman, Git, GitHub, Turborepo, pnpm, CI/CD, Agile, Scrum

ACHIEVEMENTS

- 1+ years of professional software development experience across full-stack web development, cross-platform mobile application development, cloud deployment, API development, and workflow automation.
- Solved 500+ problems on LeetCode and other competitive programming platforms, strengthening problem-solving and algorithmic skills.
